7 Find the homework and review it when it's ready

The screenshot shows a homework review interface. At the top, there are fields for 'Start: Date not set' and 'Deadline: Date not set', along with a 'Need(s) Review' dropdown menu. The main heading is 'Homework' with a sub-heading 'Description' and the text 'Please implement the knowledge acquired doing the homework.' Below this is a 'Result evaluation' section with a 'Mark:' field showing five stars and a 'Comment:' field containing 'Is all OK?'. At the bottom right, there are two buttons: 'TURN BACK FOR UPDATES' and 'Mark completed'.

8 Return the tasks for updates if there should be some improvements

This screenshot shows the 'Result evaluation' section of the homework review interface. The 'Mark:' field shows five stars and a score of '2.0'. The 'Comment:' field contains the text 'Please, correct the code'. The 'TURN BACK FOR UPDATES' button is highlighted with a red box, and the 'Mark completed' button is highlighted with a green box.

9 Add any additional materials if needed

The screenshot shows the homework review interface with a dropdown menu open. The menu options are 'Add success criteria', 'Add attachment', 'Add link to materials', and 'Delete'. The 'Add link to materials' option is highlighted with a red box.

10 Evaluate the task, leave feedback and mark as completed

This screenshot shows the 'Result evaluation' section of the homework review interface. The 'Mark:' field shows five stars and a score of '5.0'. The 'Comment:' field contains the text 'Well Done!'. The 'TURN BACK FOR UPDATES' button is highlighted with a red box, and the 'Mark completed' button is highlighted with a green box.
